

Way forward of the WGSDG KSDI for the period of 2020-2021

Capacity development for auditing SDGs

- Study of experts' approaches to assessing the implementation of SDGs.
- Collection of practical examples and preparation of recommendations on the use of ISAM on specific issues and cases.

Knowledge sharing for auditing SDGs

- Commitment to the expansion of the membership by welcoming SAIs from all INTOSAI regional organizations.
- Launch and support of regional pilot projects on SDG audit.

Advocacy and Awareness Raising

- Study of SAIs' approaches to assessing the impact of the COVID-19 crisis and anti-crisis measures on the implementation of the Agenda.
- Independent evaluation of preparedness to crises, stress testing, analysis of consequences and recovery measures to improve forecasting methodologies.
- Audit of the reliability of macroeconomic forecasts.

Key National Indicators and SDGs

- Monitoring of the KNI as a tool which could help to assess SDGs implementation at the national level.

Leave No One Behind

- Development of an SDG information hub. The WG participates in the development and content building of the SDG information hub produced by the INTOSAI Secretariat.
- Publication of the WG on SDGs and KSDI Journal.
- Constant updating of the WGSDG KSDI news and materials at the web page.

WG Governance

- Preparation of work plans by detailing planned tasks/projects with timelines, roles and responsibilities of WG members and observers and envisaged outputs.
- Regular communication of the WG members by videoconferences, seminars etc.
- Coordination with INTOSAI working groups on issues of SDG auditing.
- Cooperation with external stakeholders, including the UN (incl. UNDESA), the OECD, the World Bank and the IMF.
