Sustainable Development of the Samara Region

- The further sustainable development of the Samara Region, as the most developed region in terms of socio-economics, primarily is in keeping up-to-date regional legislation and basic strategic planning documents in terms of their compliance with the priority provisions of the Sustainable Development Agenda.
- Necessity to raise awareness and involve all stakeholders, including business companies, in the implementation of the sustainable development goals
- Introduction of effective mechanisms for interregional, and in some cases, international cooperation, for example, to achieve the sustainable development goals in the field of environment
